Supplemental Check for Defined Benefit Pension Recipients

The Trustees of the Operating Engineers Pension Trust have approved the issuance of a supplemental pension benefit for 2025 (also referred to as a **13th Check**).

This additional benefit payment will be issued on December 15th. The benefit will be direct deposited for those who have their monthly Pension benefit direct deposited. For those who receive a paper check, checks will be mailed on 12/11.

All individuals who were retired on June 1, 2025, and were eligible to receive a pension benefit in December 2025 will receive the supplemental check.

If your monthly pension benefit is being withheld or is suspended as of December 1, 2025, the supplemental check will not be awarded.

The supplemental check will match the amount of each eligible member's monthly pension benefit to a maximum benefit payment of \$500.00.
